

Website Name

IOTTech Consulting

Description of Topic

IOTTech is a tech consulting company focused on helping businesses leverage technology for efficiency, innovation, and growth. This website will showcase the company's consulting services, case studies, and industry expertise, while also allowing potential clients to interact with the team. It will serve as both an informational hub and a platform for prospective clients to submit project requests and view insights about the latest technology trends. The site will emphasize professionalism, innovation, and client-focused solutions. Additionally, it will incorporate interactive elements to make the user experience engaging and memorable.

List of Pages

1. Home – Landing page with overview and highlights.
2. About Us – Company background, mission, and C-Suite.
3. Services – List and details of consulting services offered.
4. Case Studies – Examples of successful projects and client testimonials.
5. Contact Us – Form for inquiries and client project submissions.

Data Storage, Manipulation, and Viewing

The website will store, manipulate, and display client projects.

Each project request will include the following details:

- Client Company
- Project Title
- Project Description
- Desired Services
- Timeline

User Roles & Features:

- Clients: Can submit new project requests through an online form.
- Administrators: Will have secure login accounts and access to a dashboard. They can add, edit, or delete project submissions, as well as update the status of client requests.
